Primer for Preceptor Orientation/Training

Deb Cason

STANDARD III B 1 a 6

RESOURCES:

Personnel

Program Director

Responsibilities

the orientation/training and
supervision of clinical and field
internship

Orientation vs Training

**“Orientation” to Clinical
(Hospital primarily)**

**“Training” to Capstone
Field Internship
preceptors**

Who should attend/receive the orientation/training?

**Field Experience
(a clinical)
vs
Capstone Field Internship**

What should be included in the content?

Definition of Successful Team Lead

See Standard III C 3 interpretations

Evaluation tool for Capstone Field Internship should include tracking of successful team lead

How should the content be delivered?

How should training/orientation be documented?

How should clinical and field internship experience be evaluated?

And what about “supervision?”

Top 5 Takeaways

All preceptors for Capstone Field Internship must have documented training

Top 5 Takeaways

Your clear definition of a successful team lead must be communicated to all preceptors consistently

Top 5 Takeaways

Key personnel in hospitals and other clinicals (field experience) must have orientation

Top 5 Takeaways

You have much flexibility in development of content delivery to preceptors—Be Creative!

Top 5 Takeaways

Field internship experience and hospital/clinical experience must be evaluated by the students
